

SWISS E-CAR CARSHARING

for housing developments and
property developers

Car sharing from Swiss E-Car is a clever alternative to owning your own vehicle, saves parking spaces and offers residents an attractive and sustainable form of mobility. Add the mobility component to your property and create an attractive and sustainable mobility offer for your residents right on your doorstep.

ADVANTAGES FOR YOUR HOUSING DEVELOPMENT

- Strengthening the residential community
- Sharing site can be seen as a direct contribution to the 2000 Watt society
- Saving parking spaces
- Increasing the attractiveness of real estate
- Everything from a single source: vehicle, software, hardware, insurance, services in cooperation with selected partners
- Vehicle as an advertising measure with direct cashback; reduction of fixed costs

THIS IS HOW IT WORKS

- 1.**
You can register for sharing service at www.swissecar.ch.
- 2.**
Book an E-Car via the app «Swiss E-Car» for the desired period and location.
- 3.**
Open the vehicle on site with the app.
- 4.**
Disconnect the charging cable from the car and hook it into the charging station. After that? Drive off!
- 5.**
Return the car to the parking space within the time limit. Connect the charging plug to the car and start charging with the card at the charging station.
- 6.**
Deposit the card back in the e-car, lock the vehicle and end the booking with the app.
